A message regarding Coronavirus (COVID-19)

During this time, Mattia Spinal Care and Rehab is still OPEN and serving our patients with extra precautions in place to minimize the risk of coronavirus.

The team at Mattia Spinal Care and Rehab has always regarded the health and safety of our patients as a top priority. With growing concerns about coronavirus, we wanted to underline the efforts we undergo to maintain the cleanliness and sanitation of our facilities:

- Our staff is regularly disinfecting surfaces, counters, seats, and door handles throughout the day
- Daily sanitation and disinfection of all equipment with professional-grade antibacterial cleaner
- Sterilization of all medical devices
- Used mask, syringes, wipes, gloves, and tissues are removed safely and are disposed of daily
- Hand sanitizer is available in various locations of our establishment

If you have an appointment with us and are feeling unwell, please call our clinic to make alternate arrangements.

We appreciate your cooperation as we take these proactive steps to take care of each other and ourselves. For the most up-to-date information regarding coronavirus, visit the [WHO](#) or [CDC](#) website.
